

Week_18

Sunday, January 22, 2023

10:20 PM

01/31/2024

Trinity Robotics, Electronics & Engineering

Today we will begin to build our bridges!

Students can continue updating their design, if they like!
(Continue the design phase)

For those students ready - we will begin the design phase by building 1 side of our bridge...

Here is what we will have:

Wood & Pins(for placement)

Wax paper (to keep the glue off our design-paper)

Cardboard (for structure to hold the pins in place)

Also tape to hold the design & wax paper in place

Lastly we will watch this (Project tips & suggestions) video:
Bridge Bust -
