

# Week\_19

Good afternoon Trinity Students,  
Welcome to Introduction to Technology !!

02/05/2024

We will begin today with -  
Week\_19\_beginner\_Typing\_Test, and  
Week\_19\_intermediate\_typing\_test.

Then do a simple coding review, followed by a Hands On coding exercise.

## Week\_19\_Beginner\_Touch\_Typing\_Test

Student will practice touch typing with this simple beginner home row + top row of the keys

---

Test active | Jan 29, 2023 - Feb 27, 2023

---

Created on | Jan 29, 2023

Modified on | Jan 29, 2023

## ✓ Week\_19\_Beginner\_Touch\_Ty ●

Students will practice touch typing with this typing test

---

Test active

**Feb 5, 2024 - Feb 29, 2024**

This next typing test will be real easy : small words -

Next we will have a Coding Review, followed by a coding exercise.

The Goal is to learn Critical Thinking skills, and learn about "Loops" [code.org/learn](https://code.org/learn) [Pre]

## Beaver Achiever

CodeMonkey Studios

Pre-reader - Grade 5 | Blocks

Help a Beaver achieve its goals! Dive into this beaver's natural habitat with a fun-packed coding activity that will jump-start your coding education. Beavers can swim, collect wood, and build dams. This little beaver needs your help. Use the simple blocks of code to complete the dam in the lake so the water remains calm, build a house, and make smoothies!

repeat 4 times

The scene is similar to the previous one, but now a moose is visible on the grassy bank to the left of the river. The beaver is still on the log bridge. The sun is visible in the sky.
